#### Green Bank on Sustainability:

- The bank's headquarters, designed by architect Paul van der Wal, was among the first in Houston to achieve gold-level LEED certification from the U.S. Green Building Council.
- The headquarters building uses sustainable materials and is powered by renewable energy.
- Green Bank offers special rewards to commercial building owners seeking to improve energy efficiency in their current office buildings, through new lighting and windows, insulation, "green roof" technology, or other.
- Green Bank also offers special rewards to homeowners who wish to invest in new-construction homes or townhomes or improvements to existing homes that meet LEED or Energy Star standards.
- Green Bank offers interest rate discounts to environmentally friendly businesses and donates to each new customer's favorite environmental nonprofit.

Green Bank, N.A. is a federally chartered bank regulated by the Office of the Comptroller of the Currency, a division of the Department of the Treasury of the United States. www.greenbank.com
