GREEN BANK℠

COMMERCIAL CASH MANAGEMENT COMPARISON GUIDE

Green Bank is excited to announce that our Small Business Cash Management Online Banking is being upgraded to Commercial Cash Management Online. Beginning on April 7, 2017 when you logon there will be new functionality available. This guide outlines a comparison between today's functionality and what you can expect to see.

Your same user IDs and passwords will be used. There is no change to your logon process.

FUNCTION	CURRENT	NEW
ACH		
Quick Edit Only	Only one Edit entitlement that allows for both Edit and Quick Edit	New entitlement allowing user to be given access to the Quick Edit option only. User would not be able to add or delete transactions.
Quick Edit Addenda	Addenda information must be added or changed within single entries in the Edit tab.	A new field has been added to the Quick Edit page allowing for addenda to be added or amended.
Pending Approval	No approval process for batches. User without Full Ach Control must let another user know that a batch needs to be initiated.	User without Full ACH Control will see a field on the Edit and Quick Edit pages. User can select "A batch is ready for approval". An alert is then generated and sent to all users who have opted to receive it.
Quick Delete	Batches must be deleted individually from the Select Options drop-down menu.	User with delete capabilities can select multiple batches by checking the box to the left of the batch name. An option at bottom of screen allows for Delete Selected.
History	History shows initiated date, effective date, batch name, SEC code, company name, total debits, total credits and offset account.	History shows initiated date, effective date, batch name, SEC code, company name, total debits, total credits and offset account. Confirmation number has been added to the history screen.
